## SUMMARY

BCA student with strong interest in AI, automation, and full-stack development. Experience building AI-powered chatbots and intelligent web applications. Skilled in Python, web technologies, and automation workflows. Seeking internship opportunities in AI engineering and software development.

## TECHNICAL SKILLS

- **Programming:** Python, C++, JavaScript
- **Web Development:** React, HTML, CSS
- **AI & Data:** Machine Learning Concepts, AI Workflows, Data Structures
- **Tools:** Git, VS Code, Tableau
- **Automation:** AI-Powered Automation Tools, Chatbot Development, Smart Digital Systems
- **Blockchain & Emerging Tech:** Arbitrum (Launchpad Hackathon 2025), Web3 Fundamentals

## PROJECTS & EXPERIENCE

### Founder & Developer – Tech Magnitude (2024 – Present)

- Built AI-powered chatbot system handling **100+ queries/day**, reducing manual effort by **~40%**
- Developed automation workflows cutting repetitive tasks by **30–50%**
- Led development of intelligent web apps integrating AI-based features

### AI Automation System

- Developed AI automation platform using Python & NLP, improving processing efficiency by **~35%**
- Designed modular architecture reducing integration time by **40%**

### Intelligent Web Application

- Built full-stack AI web app improving response time by **~25%**
- Developed REST APIs and responsive UI for better user experience

## EDUCATION

### Bachelor of Computer Application (BCA)

| Centurion University of Technology and Management | Odisha, India  
*August 2025 – August 2029 (Expected)*

### Senior Secondary Certificate (Science Stream)

| St. Xavier's High School | Odisha, India  
*2023 – 2025*

## CERTIFICATIONS & ACHIEVEMENTS

- B10X AI Program Certification – Comprehensive AI foundations and applied machine learning
  - Tableau for Data Science Certification – Data visualization and analytical dashboard development
  - Oracle AI Vector Search Professional – Advanced AI-powered search and vector database management
  - Masterclass on Exploring Banking Roles – Financial technology and digital banking fundamentals
  - Arbitrum Launchpad Hackathon 2025 – Developed and presented a blockchain-based solution (Web3/DeFi)
  - AI Awareness Certification – Applied AI ethics, safety, and awareness
  - Cybersecurity Careers Certification – Foundations of cybersecurity and digital safety
- Open to Internships • AI Engineering • Software Development • Automation*
